

Make Your Own Princess Elena Bracelets!

What's in the bag?

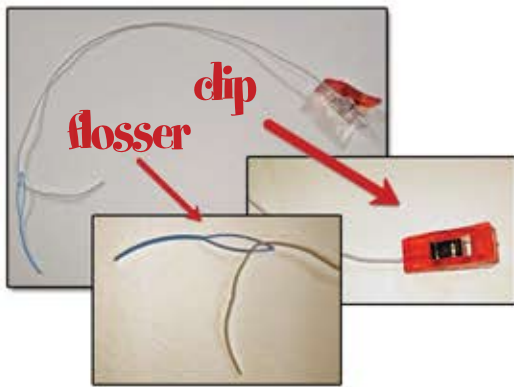

- 3 pieces of stretchy string
- Clip
- "Needle" (dental flosser)
- Some charms
- A big pile o' beads

Step One

First pour all of the pieces into a small bowl. This way, the beads won't go all over and upset your parents.

Put a clip on one end of the string. This will keep the beads from falling off the string while you are beading.

Thread the string through the flosser. Don't knot the string!

Step Two

Next, start stringing the beads, stopping halfway to add a charm. We used about 24 beads per bracelet for a 6-inch wrist. Your bracelet may vary.

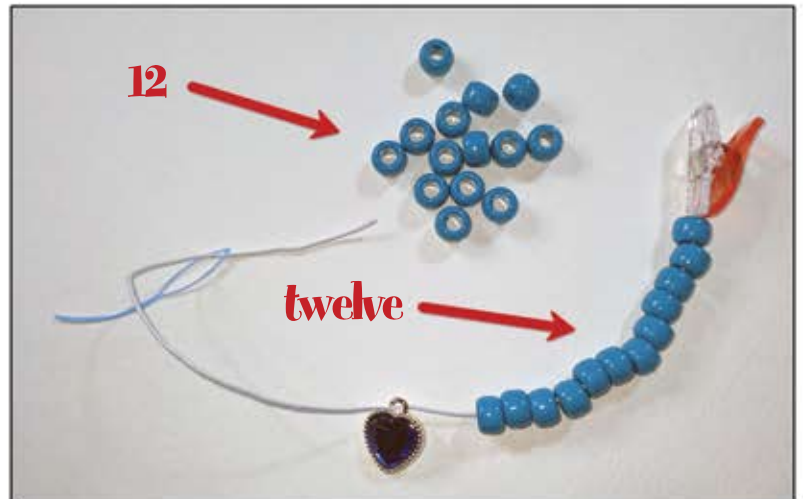

Have fun! solid colors, alternating colors, whatever! It's YOUR bracelet!

Step Three

Finally, make your knot. Have an adult help you. A double knot should be fine. Triple knot is even better.

Trim the ends if they're too long.

You can tuck the knot through the holes in the beads to hide it.

Thank you for coming to my birthday party!

Love,
Mae
